

Why Michigan Totes?

Michigan Totes are “Useable Art.” Bags for carrying items have been around since the days of the leather pouch. Printed cotton canvas bags are becoming increasingly popular with new awareness of recycling.

Many businesses have printed their logo, name and other advertising information on tote bags. As a form of branding, totes are then sold or given away. Artistic Michigan Totes are more like a gift, and less like advertising.

- Michigan Totes feature “real art”
- Michigan Totes have a higher perceived value, organic cotton
- Useable art, a true gift to your clients
- Michigan Totes promote Michigan
- Mackinac Bridge art on our first totes
